

Steamboat Stadt Luzern

THE FLAGSHIP

ON
LAKE LUCERNE
SINCE 1928

WELCOME ON BOARD!

STADT LUZERN

The majestic paddle steamer Stadt Luzern is the proud flagship of Lake Lucerne, leading an impressive fleet that includes 18 other vessels. Originally built in 1928 as the last steamboat for a Swiss lake, the stately ship can look back on a rich history and has hosted numerous illustrious guests during the past 90 years.

The remarkable story of PS Stadt Luzern closely reflects 20th century history and as the ship approaches its centenary anniversary later this decade, it has once again been rejuvenated and stylishly renovated. Even during the pandemic, the restoration process has continued at the Lucerne shipyard and the flagship will be ready for its planned relaunch in spring 2021.
