## Gornergrat – Meet the Matterhorn

If you want to discover the dazzling beauty of the Alps, you'll soon realise that the trip to Gornergrat is an essential excursion.

Its sunny viewing platform, accessible all year, makes the Gornergrat ridge a top destination – and not just because of its altitude.

Surrounded by 29 peaks rising above 4000 m and by Switzerland's greatest mountain, the Matterhorn, and second largest glacier in the Alps, it offers a spectacular mountain panorama second to none. And the "Matterhorn Railway" renders it so close you can almost touch it. For more than 120 years the Gornergrat Bahn has been making the ascent to the panoramic mountain a truly unique and wonderful experience.

From Zermatt, the popular holiday resort in the Valais, Europe's highest open-air cogwheel railway departs daily every 24 minutes, climbing to the Gornergrat 9339 m away.

The train crosses impressive bridges, galleries and tunnels, idyllic forests and alpine meadows, past rocky gorges and tarns, accompanied by the majestic mountains, first and foremost by the Matterhorn.

Allways up-to-date!

## Winter events

### Dining with the stars Gornergrat

At 3100 m, your hosts up at the Kulm Hotel Gornergrat serve a great buffet with "Fondue Chinoise" (with meat) followed by dessert. Your local guide to the stars, Peter Salzmann, will then explain the star constellations and how they were influenced by the ancient Greek sagas. If the weather gods are willing, then you will have a spectacular view of the night sky from the hotel's terrace.

The highlight of the evening is to see the stars by telescope from the dome in the observatory. When the weather is favourable the sight is amazing. Professional explanations including dry-navigation with the guide Peter Salzmann.
